Resto Ecosystem

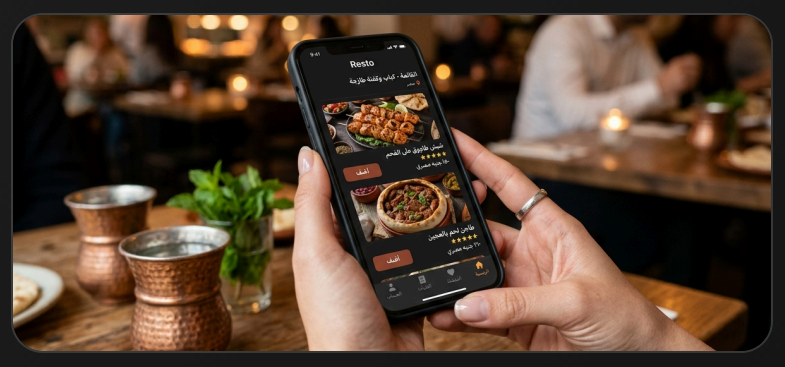

Integrated Digital Ordering & Operations Solution for Modern Restaurants

Enterprise Hospitality Solution

Own Your Digital Channel & Multiply Direct Sales

A unified software ecosystem that empowers your restaurant with a branded customer mobile app, an intuitive driver delivery portal, and a centralized web dashboard to control kitchen operations and sales —with zero third-party commissions.

3	0%	100%
Integrated Apps in One System	Aggregator Sales Commission	Order & Inventory Control

One Synchronized Ecosystem .. Three Tailored User Experiences

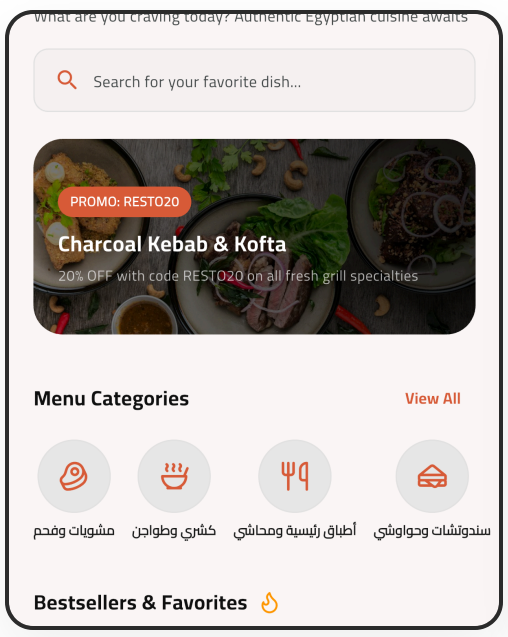

Real, uncut production screens from the live deployed platform:

Smartphone Applications (iOS & Android)

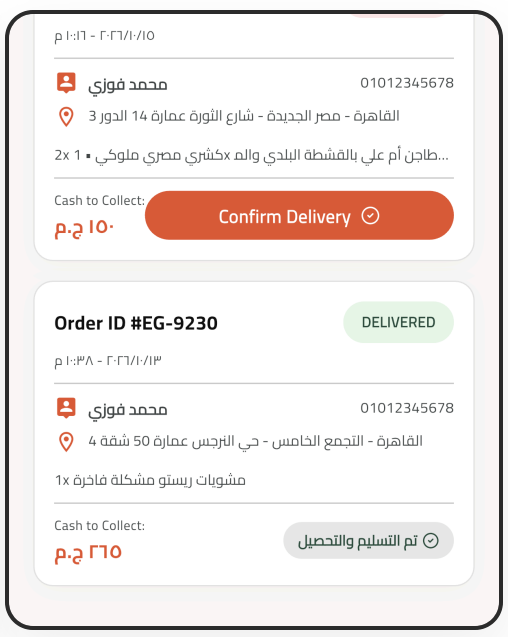

Engaging ordering for customers & effortless operations for drivers

Native Screens

Customer App

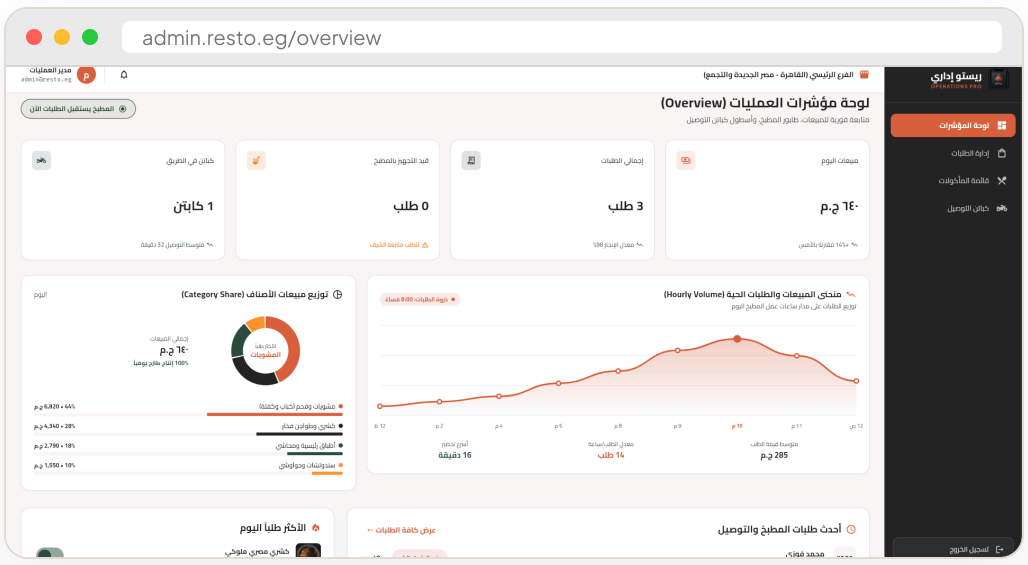

Driver App

Operations Web Dashboard

Live sales tracking, kitchen order queue, & fleet dispatch

Web Console

- Live revenue metrics & fulfillment rates
- Hourly order volume & peak-hour tracking
- 1-click menu item out-of-stock toggle
- Instant driver dispatch & fleet roster

Core Features & Operational Capabilities

1 Interactive Menu
Dishes organized with calculated calories, prep time, and rich imagery.

2 Delivery & Pickup
Full flexibility for home delivery or fast in-branch takeaway pickup.

3 Real-Time Tracking
4-stage transparent tracker showing kitchen preparation & driver transit.

4 Coupons & Offers
Manage promo campaigns with instant code validation (e.g. RESTO20).

5 Instant Stock Toggle
1-click switch to disable sold-out dishes instantly across all channels.

6 Driver Fleet Dispatch
Assign orders to in-house couriers and monitor live fulfillment status.

7 Feedback & Care
Direct in-app channel to handle customer inquiries and build loyalty.

8 Live Sales Reports
Peak hour analytics and revenue breakdown for informed decisions.

Streamlined & Rapid Operational Workflow

Complete operational harmony ensuring dishes arrive fresh, hot, and on time:

Home Delivery — 4-Step Milestone Flow

1. Customer Orders
2. Kitchen Prepares
3. Driver En Route
4. Delivery & Cash

Takeaway / Pickup — Quick Service & Zero Wait

1. Customer Orders
2. Received at Branch
3. Kitchen Prepares
4. Ready for Pickup

Experience the Platform with the Live Interactive Demo

Test the end-to-end order lifecycle as a customer, delivery driver, and operations manager right now.
